UNIQUE GIFT

Enjoy a luxury experience with highly trained artists mingling with your guests, sketching their portrait in a matter of minutes on the latest technology.

HOW IT WORKS

Our artists mingle in your crowd drawing your guests' portraits where they are (no waiting in line!). Drawings are emailed to the guests and printed on the spot.

Once the artist begins sketching, guests are attracted by the activity and request to have their own portraits drawn.

Digital artworks are quick and hassle free. Be part of the latest trends in digital art-making with a hand-drawn style.

FAQ

How long does it take?

Drawings are typically 3-4 minutes with an additional two minutes for printing and the guest inputting their email.

Can multiple people be in the same drawing? Yes, of course!

What are your setup requirements?

We only require a secure space to hold our artists' personal items, and Wifi if you have it. If you would like a stationary artist, then a table and chair are required. Artists arrive an hour prior to the event start time. No table, display, or power source is needed with mobile printing.

How does the printing work?

Our artists wear custom printing belts, so that the portraits print from the artists' hip, making them completely mobile! However, if you are having an event with multiple artists and would like one stationary and one roaming that is just fine, too!

How does pricing work?

Quotes are inclusive of custom branding, drawing files, mobile printing, setup time, travel. Pricing is factored by number of artist and hours except with regard to travel rates. Request a quote or bulk rate for many events.

Is color included?

Yes, color drawings are built into the pricing. Most people prefer black and white, or pops of color, but the guest may also decide on the spot. We ask that you specify which color or direction well in advance to best prepare the artists with what you have in mind.

Is custom branding included?

Yes! Our prices included custom branded color backgrounds. We can either send you our background specs and your graphic design department can create a background that is on brand, or you can send us logos and event graphics and we will create one for you!

MOBILE PRINTING

Guests receive their portraits right where they are standing.

Do you have a minimum required booking time?

2 hour minimum in NYC, LA, and Chicago where our teams are located. Day rates apply to travel bookings.

How many artists for the event size?

The number of artists really depends on if you are having multiple activations, or if we are the sole entertainment provider. We usually suggest that parties of:

0-50 guests= 1 Artist
60-250 guests = 2 Artists
250-350 guests = 3 Artists
400+ guests = 4+ Artists

How quickly do I receive my digital gallery of images?

You receive the gallery as soon as 48 hours after your event. For immediate gallery needs such as a conference please indicate this when booking.

Hear what others are saying...

After personally experiencing the great work that Drawing Booth produced, at an event I was invited to, I then booked them for our Christmas Party, at a famous Private Members Club. All our guests were extremely impressed and vying for their portrait to be drawn. What a great memento for our guests to take away and a great reminder of the Party. The ladies from Drawing Booth were amazing to work with, friendly and so professional. Can't wait to book them again.
